Contents of Volume 71

No. 1. JULY 1991

BRIEF REVIEW

Fractal perspectives in pulmonary physiology
J. E. McNamee 1

A new method to measure nasal impedance in spontaneously breathing adults
B. Tawfik, K. J. Sullivan, and H. K. Chang 9

Doubly labeled water measurement of human energy expenditure during strenuous exercise
R. W. Hoyt, T. E. Jones, T. P. Stein, G. W. McAninch, H. R. Lieberman, E. W. Askew, and A. Cymerman 16

Enhanced coupling of adenylate cyclase to lipolysis in permeabilized adipocytes from trained rats
T. Izawa, T. Komabayashi, T. Mochizuki, K. Suda, and M. Tsuboi 23

O_2 and rat pulmonary artery tone: effects of endothelium, Ca^{2+}, cyanide, and monocrotaline
R. Mathew, T. Burke-Wolin, M. H. Gewitz, and M. S. Wolin 30

Respiratory stimulation by female hormones in awake male rats
K. Tatsumi, M. Mikami, T. Kuriyama, and Y. Fukuda 37

Cyclooxygenase inhibitors prevent ethchlorvynol-induced injury in rat and rabbit lungs
P. B. Zanaboni, J. D. Bradley, R. O. Webster, and T. E. Dahms 43

Tracheal vascular and smooth muscle responses to air temperature and humidity in dogs
R. O. Salonen, S. E. Webber, M. E. Deffebach, and J. G. Widdicombe 50

Heat debt during cold air exposure before and after cold water immersions
P. Tikuisis, D. H. McCracken, and M. W. Radomski 60

Nonlinearity and harmonic distortion of dog lungs measured by low-frequency forced oscillations
B. Suki, Z. Hantos, B. Daróczy, G. Alkaysi, and S. Nagy 69

Effect of lung inflation on regional lung expansion in supine and prone rabbits
Q.-H. Yang and S. J. Lai-Fook 76

Effects of anesthetic agents on systemic critical O_2 delivery
P. Van der Linden, E. Gilbart, E. Engelman, D. Schmartz, and J. L. Vincent 83

Estimation of the pulmonary microvascular reflection coefficient to protein in dogs
R. E. Drake and J. C. Gabel 94

Active lymphatic pumping and sheep lung lymph flow
R. E. Drake, D. Weiss, and J. C. Gabel 99

Effects of systole-specific pericardial pressure increases on coronary flow
C. Hassapoyannes, J. F. Harper, L. M. Stuck, C. A. Hornung, and F. L. Abel 104

Water homeostasis in desert-dwelling horses
J. C. Sneddon, J. G. van der Walt, and G. Mitchell 112

Relationship between alae nasi activation and breathing route during exercise in humans
J. R. Wheatley, T. C. Amis, and L. A. Engel 118

Cold exposure during military operations: effects on anaerobic performance
A. C. Hackney, J. M. Shaw, J. A. Hodgdon, J. T. Coyne, and D. L. Kelleher 125

Differences between $\dot{V}o_2$ maxima of twitch and tetanic contractions are related to blood flow
W. F. Brechue, J. K. Barclay, D. M. O'Drobinak, and W. N. Stainsby 131

Enhanced exercise-induced rise of aldosterone and vasopressin preceding mountain sickness
P. Bärtsch, M. Maggiorini, W. Schobersberger, S. Shaw, W. Rascher, J. Girard, P. Weidmann, and O. Oelz 136

Physiological responses to glycerol ingestion during exercise
R. Murray, D. E. Eddy, G. L. Paul, J. G. Seifert, and G. A. Halaby 144

Developmental changes in effects of histamine on segmental pulmonary vascular resistances
J. B. Gordon, S. Clément de Cléty, and K. Chu 150

Diaphragmatic intramuscular pressure in relation to tension, shortening, and blood flow
S. N. A. Hussain and S. Magder 159

Ventilatory response of the sleeping newborn to CO_2 during normoxic rebreathing
G. Cohen, C. Xu, and D. Henderson-Smart 168

Effect of chest wall vibration on breathlessness in normal subjects
H. L. Manning, R. Basner, J. Ringler, C. Rand, V. Fencl, S. E. Weinberger, J. W. Weiss, and R. M. Schwartzstein 175

Glyconeogenic and glycogenic enzymes in chronically active and normal skeletal muscle
R. J. Talmadge and H. Silverman 182

Mechanism for pressor response to nonexertional heating in the conscious rat
K. C. Kregel, J. M. Overton, D. G. Johnson, C. M. Tipton, and D. R. Seals 192

Additive effects of training and high-fat diet on energy metabolism during exercise
B. Simi, B. Sempore, M.-H. Mayet, and R. J. Favier 197

Skeletal muscle relaxation rate after fasting or hypocaloric feeding
M. L. Nishio and K. N. Jeejeebhoy 204

Activation of neurons in the rostral ventrolateral medulla increases bronchomotor tone in dogs
J. R. Haselton, P. A. Padrid, and M. P. Kaufman 210

Modulation of vascular reactivity to serotonin in the dog lung
W. F. Hofman, W. F. Jackson, H. El-Kashef, and I. C. Ehrhart 217

Independent control of mucosal and total airway blood flow during hypoxemia
S. Elsasser, W. M. Long, H. J. Baier, A. D. Chediak, and A. Wanner 223

Biochemical characterization of exercise-trained porcine myocardium
M. H. Laughlin, C. C. Hale, L. Novela, D. Gute, N. Hamilton, and C. D. Ianuzzo 229

Sweating and skin blood flow during exercise: effects of age and maximal oxygen uptake
C. G. Tankersley, J. Smolander, W. L. Kenney, and S. M. Fortney 236

Analysis of responses to endothelins 1, 2, and 3 and sarafotoxin 6b in airways of the cat
M. C. Dyson and P. J. Kadowitz 243

Pulmonary blood flow and ventilation-perfusion heterogeneity
K. B. Domino, B. L. Eisenstein, F. W. Cheney, and M. P. Hlastala 252

Frequency characteristics of airway and tissue impedances in respiratory diseases
M. Mishima, K. Kawakami, K. Higashiya, T. Fukunaga, T. Ooka, and K. Kuno 259

Effect of waveforms of inspired gas tension on the respiratory oscillations of carotid body discharge
P. Kumar, P. C. G. Nye, and R. W. Torrance 271

Developmental changes in neuromuscular transmission in the rat diaphragm
J. D. Feldman, A. R. Bazzy, T. R. Cummins, and G. G. Haddad 280

Histamine-induced constriction of canine peripheral lung: an airway or tissue response?
M. S. Ludwig, F. M. Robatto, P. D. Sly, M. Browman, J. H. T. Bates, and P. V. Romero 287

Influence of posture on lung volumes and impedance of respiratory system in healthy smokers and nonsmokers
A. Michels, K. Decoster, L. Derde, C. Vleurinck, and K. P. Van de Woestijne 294

Role of the sympathetic nervous system in cold-induced hypertension in rats
P. E. Papanek, C. E. Wood, and M. J. Fregly 300

Role of neutrophils in endotoxin-mediated microvascular injury in hamsters
T. Matsuda, I. Rubinstein, R. A. Robbins, S. Koyama, W. L. Joyner, and S. I. Rennard 307

Effect of thoracic duct drainage on hydrostatic pulmonary edema and pleural effusion in sheep
S. J. Allen, R. E. Drake, G. A. Laine, and J. C. Gabel 314

Inhibition of pulmonary surfactant function by phospholipases
B. A. Holm, L. Keicher, M. Liu, J. Sokolowski, and G. Enhorning 317

Effects of pulmonary restriction on hypercapnic responses of heart-lung transplant recipients
S. R. Duncan, F. T. Kagawa, M. R. Kramer, V. A. Starnes, and J. Theodore 322

Mechanisms of hypophosphatemia in humans with heatstroke
A. Bouchama, A. Cafege, W. Robertson, S. Al-Dossary, and A. El-Yazigi 328

Decreased reliance on lactate during exercise after acclimatization to 4,300 m
G. A. Brooks, G. E. Butterfield, R. R. Wolfe, B. M. Groves, R. S. Mazzeo, J. R. Sutton, E. E. Wolfel, and J. T. Reeves 333

Pentoxifylline does not attenuate acute lung injury in the absence of granulocytes
M. Yonemaru, J. R. Hatherill, H. Hoffmann, H. Zheng, K. Ishii, and T. A. Raffin 342

Protection from hyperbaric oxidant stress by administration of buthionine sulfoximine
K. H. Komadina, C. A. Duncan, C. L. Bryan, and S. G. Jenkinson 352

SPECIAL COMMUNICATIONS

Simple validation for the hepatic venous cannula implanted chronically in conscious rats
M.-T. Huang 359

Methods for intracellular recording from hippocampal brain slices under high helium pressure
A. P. Southan and K. T. Wann 365

LETTERS TO THE EDITOR

Training-induced muscle enlargement
J. A. Mastropaolo and B. F. Timson 372

ABSTRACTS FROM CURRENT LITERATURE 375

No. 2. AUGUST 1991

BRIEF REVIEW

Pleural liquid pressure
E. Agostoni and E. D'Angelo 393

Regulation of lipoprotein lipase in muscle and adipose tissue during exercise
M. J. Ladu, H. Kapsas, and W. K. Palmer 404

Mechanisms by which endothelin 1 induces pulmonary vasoconstriction in the rabbit
J. Mann, I. S. Farrukh, and J. R. Michael 410

Vascular resistance and K_f in normal and PMA-injured rabbit lungs: effects of adenosine
J. D. Bradley, P. B. Zanaboni, T. E. Dahms, and R. O. Webster 417

Response of slowly adapting pulmonary stretch receptors to reduced lung compliance
J. Yu, T. E. Pisarri, J. C. G. Coleridge, and H. M. Coleridge 425

Effects of pyridostigmine bromide on human thermoregulation during cold water immersion
W. K. Prusaczyk and M. N. Sawka 432

Effect of triiodothyronine-induced thyrotoxicosis on airway hyperresponsiveness
H. M. Hollingsworth, M. R. Pratter, J. M. Dubois, L. E. Braverman, and R. S. Irwin 438

Factors controlling fat mobilization from human subcutaneous adipose tissue during exercise
V. Hodgetts, S. W. Coppack, K. N. Frayn, and T. D. R. Hockaday 445

Relative bronchoconstrictor activity of neurokinin A and neurokinin A fragments in guinea pigs
S. A. Shore and J. M. Drazen 452

CONTENTS OF VOLUME 71

Diaphragm muscle fatigue resistance during postnatal development
G. C. Sieck, M. Fournier, and C. E. Blanco 458

Short-term effect of tidal pleural pressure swings on pulmonary blood flow during rest and exercise
G. G. Giesbrecht, F. Ali, and M. Younes 465

Persistence of the Hering-Breuer reflex beyond the neonatal period
P. S. Rabbette, K. L. Costeloe, and J. Stocks 474

Plasma protein osmotic pressure equations and nomogram for sheep
S. Yamada, M. K. Grady, V. Licko, and N. C. Staub 481

Changes in upper airway muscle activation and ventilation during phasic REM sleep in normal men
L. Wiegand, C. W. Zwillich, D. Wiegand, and D. P. White 488

Effects of volume history and vagotomy on pulmonary and chest wall mechanics in cats
F. R. Shardonofsky, M. Skaburskis, J. Sato, W. A. Zin, and J. Milic-Emili 498

Hypobaric hypoxia (380 Torr) decreases intracellular and total body water in goats
R. W. Hoyt, M. J. Durkot, V. A. Forte, Jr., L. J. Hubbard, L. A. Trad, and A. Cymerman 509

Net lactate uptake during progressive steady-level contractions in canine skeletal muscle
L. B. Gladden 514

Effects of invariant sympathetic activity on cutaneous circulatory responses to heat stress
D. Richardson, H. Qing-Fu, and S. Shepherd 521

Activity of pulmonary surfactant after blocking the associated proteins SP-A and SP-B
T. Kobayashi, K. Nitta, R. Takahashi, K. Kurashima, B. Robertson, and Y. Suzuki 530

High pressure modifies respiratory activity in isolated rat brain stem-spinal cord
A. Tarasiuk and Y. Grossman 537

Oronasal partitioning of ventilation during exercise in humans
J. R. Wheatley, T. C. Amis, and L. A. Engel 546

Influence of active muscle mass on glucose homeostasis during exercise in humans
M. Kjaer, B. Kiens, M. Hargreaves, and E. A. Richter 552

Rostrocaudal pattern of fiber-type changes in an overloaded rat ankle extensor
P. F. Gardiner, B. J. Jasmin, and P. Corriveau 558

Relationships between abdominal and diaphragmatic volume displacements
H. Knight, W. M. Petroll, and D. F. Rochester 565

Ultrastructural appearances of pulmonary capillaries at high transmural pressures
K. Tsukimoto, O. Mathieu-Costello, R. Prediletto, A. R. Elliott, and J. B. West 573

Regional distribution of blood flow within the diaphragm
A. Brancatisano, T. C. Amis, A. Tully, W. T. Kelly, and L. A. Engel 583

Heat loss from the human head during exercise
W. Rasch, P. Samson, J. Cote, and M. Cabanac 590

Interactive effects of body posture and exercise training on maximal oxygen uptake
C. A. Ray and K. J. Cureton 596

Increased resistance in postobstructive pulmonary vasculopathy: structure-function relationships
R. P. Michel and T. S. Hakim 601

Effect of increased acceleration on regional pleural pressure in dogs
S. J. Lai-Fook, L. V. Brown, V. S. Maudgalya, C. F. Knapp, and S. Ganesan 611

Gravity is a minor determinant of pulmonary blood flow distribution
R. W. Glenny, W. J. E. Lamm, R. K. Albert, and H. T. Robertson 620

Neutrophil kinetics during active cigarette smoking in rabbits
C. H. Bosken, C. M. Doerschuk, D. English, and J. C. Hogg 630

Pressure-induced striatal dopamine release correlates hyperlocomotor activity in rats exposed to high pressure
J. H. Abraini and J.-C. Rostain 638

A cross-sectional study of muscle strength and mass in 45- to 78-yr-old men and women
W. R. Frontera, V. A. Hughes, K. J. Lutz, and W. J. Evans 644

Effect of axillary blockade on regional cerebral blood flow during static handgrip
D. B. Friedman, L. Friberg, J. H. Mitchell, and N. H. Secher 651

Reduction of neutrophil influx diminishes lung injury and mortality following phosgene inhalation
A. J. Ghio, T. P. Kennedy, G. E. Hatch, and J. S. Tepper 657

Role of bronchial basement membrane in airway collapse
R. K. Lambert 666

Enhanced protein breakdown after eccentric exercise in young and older men
R. A. Fielding, C. N. Meredith, K. P. O'Reilly, W. R. Frontera, J. G. Cannon, and W. J. Evans 674

Effect of carbohydrate supplements and water on exercise metabolism in the heat
B. B. Yaspelkis III and J. L. Ivy 680

Interleukin 1 protects rats against oxygen toxicity
M.-F. Tsan, C. Y. Lee, and J. E. White 688

Accuracy of measurements of small changes in soft tissue mass by use of dual-photon absorptiometry
L. C. Lands, G. J. F. Heigenhauser, C. Gordon, N. L. Jones, and C. E. Webber 698

Effects of cold on microvascular fluid movement in the cat limb
J. X. Zhang and M. B. Wolf 703

Effects of hypoxia and hypercapnia on geniohyoid contractility and endurance
R. J. Salomone and E. van Lunteren 709

Passive heat exposure leads to delayed increase in plasma levels of atrial natriuretic peptide in humans
J. Leppäluoto, O. Arjamaa, O. Vuolteenaho, and H. Ruskoaho 716

Effects of BAY K 8644, nifedipine, and low Ca^{2+} on halothane and caffeine potentiation
J. H. Williams, M. Holland, J. C. Lee, C. W. Ward, and K. P. Davy 721

Lung edema formation following inhalation injury: role of the bronchial blood flow
S. Abdi, D. N. Herndon, L. D. Traber, K. D. Ashley, J. C. Stothert, Jr., J. Maguire, R. Butler, and D. L. Traber 727

In vivo attenuation of endothelium-dependent pulmonary vasodilation by methylene blue
J. R. Fineman, M. R. Crowley, M. A. Heymann, and S. J. Soifer 735

Pulmonary surfactant will secure free airflow through a narrow tube
M. Liu, L. Wang, E Li, and G. Enhorning 742

Dynamic performance of a load-moving skeletal muscle
R. Baratta and M. Solomonow 749

MODELING IN PHYSIOLOGY

Modeling the effect of flow heterogeneity on coronary permeability-surface area
K. A. Overholser, M. J. Bhatte, and M. H. Laughlin 758

SPECIAL COMMUNICATIONS

Measurement of total respiratory impedance in infants by the forced oscillation technique
K. N. Desager, W. Buhr, M. Willemen, H. P. Van Bever, W. De Backer, P. A. Vermeire, and F. J. Làndsér 770

Regulation of atrial natriuretic peptide release in normal humans
E. T. Mannix, M. O. Farber, G. R. Aronoff, E. M. Cockerill, T. Ryan, T. Y. Sullivan, S. Carlone, P. Palange, P. Galassetti, P. Serra, and F. Manfredi 1340

Effect of geniohyoid and sternohyoid muscle contraction on upper airway resistance in the cat
D. A. Wiegand and B. Latz 1346

Effects of hypoxia and cold acclimation on thermoregulation in the rat
H. Gautier, M. Bonora, S. B. M'Barek, and J. D. Sinclair 1355

Lesions in retrotrapezoid nucleus decrease ventilatory output in anesthetized or decerebrate cats
E. E. Nattie, A. Li, and W. M. St. John 1364

Thromboxane synthase inhibition and cardiopulmonary function during endotoxemia in sheep
K. Fujioka, K. Sugi, T. Isago, J. T. Flynn, L. D. Traber, D. N. Herndon, and D. L. Traber 1376

Effect of hypovolemia on forearm vascular resistance control during exercise in the heat
T. Nishiyasu, X. Shi, G. W. Mack, and E. R. Nadel 1382

Effects of high-intensity sprint training on skeletal muscle blood flow in rats
T. I. Musch, J. A. Terrell, and M. R. Hilty 1387

Inhaled PAF stimulates leukotriene and thromboxane A_2 production in humans
I. K. Taylor, P. S. Ward, G. W. Taylor, C. T. Dollery, and R. W. Fuller 1396

Analysis of pulmonary microvascular permeability after smoke inhalation
T. Isago, S. Noshima, L. D. Traber, D. N. Herndon, and D. L. Traber 1403

Effect of aminophylline on the contraction threshold of rat diaphragm fibers
A. S. Losavio and B. A. Kotsias 1409

CONTENTS OF VOLUME 71

Heparin reversal by protamine in humans—complement, prostaglandins, blood cells, and hemodynamics
J. Hobbhahn, P. F. Conzen, H. Habazettl, R. Gutmann, W. Kellermann, and K. Peter 1415

Acoustic myography for investigating human skeletal muscle fatigue
M. J. Stokes and P. A. Dalton 1422

Plasma catecholamine and lactate response during graded exercise with varied glycogen conditions
D. A. Podolin, P. A. Munger, and R. S. Mazzeo 1427

Role of the epithelium in airway smooth muscle responses to relaxant agonists
J. Yang, W. Mitzner, and C. Hirshman 1434

Effects of flow on recombinant tissue plasminogen activator-induced pulmonary thrombolysis
R. M. Prewitt, S. Gu, D. Greenberg, S. M. Chan, U. Schick, H. La Pointe, and J. Ducas 1441

Cerebral metabolic and pressure-flow responses during sustained hypoxia in awake sheep
J. Iwamoto, D. C. Curran-Everett, E. Krasney, and J. A. Krasney 1447

Pregnancy-induced changes in the maximal physiological responses during swimming
R. G. McMurray, A. C. Hackney, V. L. Katz, M. Gall, and W. J. Watson 1454

Effects of perfusate buffer capacity on capillary CO_2-HCO_3^--H^+ reactions: theory
A. Bidani and T. A. Heming 1460

Internal carotid flow velocity with exercise before and after acclimatization to 4,300 m
S. Y. Huang, K. W. Tawney, P. R. Bender, B. M. Groves, R. E. McCullough, R. G. McCullough, A. J. Micco, M. Manco-Johnson, A. Cymerman, E. R. Greene, and J. T. Reeves 1469

Effect of lung volume and positional changes on pulmonary diffusing capacity and its components
H. Stam, F. J. A. Kreuzer, and A. Versprille 1477

Extracellular Ca^{2+} mobilization in potential-dependent contraction of trachealis of maturing swine
R. W. Mitchell, T. M. Murphy, E. Kelly, and A. R. Leff 1489

Does the pressor response to ischemic exercise improve blood flow to contracting muscles in humans?
M. J. Joyner 1496

Interfacial transfer kinetics of NO_2 into pulmonary epithelial lining fluid
E. M. Postlethwait, S. D. Langford, and A. Bidani 1502

Ventilatory afterdischarge in the awake goat
M. J. A. Engwall, L. Daristotle, W. Z. Niu, J. A. Dempsey, and G. E. Bisgard 1511

Protection of the reperfused heart by L-propionylcarnitine
J. A. Leipälä, R. Bhatnagar, E. Pineda, S. Najibi, K. Massoumi, and L. Packer 1518

Effects of chronic and acute exercise on cardiovascular β-adrenergic responses
W. H. Martin III, R. J. Spina, E. Korte, and T. Ogawa 1523

Design and implementation of a new computerized system for intraoperative cardiac mapping
C. F. Pieper, D. Parsons, G. M. Lawrie, J. Lacy, R. Roberts, and A. Pacifico 1529

Contributions of diffusion jet flow and cardiac activity to regional ventilation in CFV
J. G. Venegas, Y. Yamada, and C. A. Hales 1540

Lung ischemia-reperfusion injury in awake sheep: protection with verapamil
N. E. Wickersham, J. J. Johnson, B. O. Meyrick, R. J. Gilroy, and J. E. Loyd 1554

Pharmacological dissection of components of the Valsalva maneuver in adrenergic failure
P. Sandroni, E. E. Benarroch, and P. A. Low 1563

Leg exercise conditioning increases peak forearm blood flow
D. Silber, D. McLaughlin, and L. Sinoway 1568

Initiation of oral breathing in lambs in response to airway obstruction: mechanisms
R. Harding, S. B. Hooper, and G. A. Wood 1574

Regional deformation of the canine diaphragm
J. L. Péan, C. J. Chuong, M. Ramanathan, and R. L. Johnson, Jr. 1581

Motoneuron and muscle fiber succinate dehydrogenase activity in control and overloaded plantaris
G. R. Chalmers, R. R. Roy, and V. R. Edgerton 1589

Intracranial self-stimulation motivates treadmill running in rats
M. L. Burgess, J. M. Davis, T. K. Borg, and J. Buggy 1593

Circadian rhythm in airway responsiveness and airway tone in patients with mild asthma
R. Bonnet, R. Jörres, U. Heitmann, and H. Magnussen 1598

Extra-alveolar veins are contiguous with, and leak fluid into, periarterial cuffs in rabbit lungs
D. L. Luchtel, L. Embree, R. Guest, and R. K. Albert 1606

Effect of work load on cutaneous vascular response to exercise
J. Smolander, J. Saalo, and O. Korhonen 1614

SPECIAL COMMUNICATIONS

Time domain analysis of oxygen uptake during pseudorandom binary sequence exercise tests
R. L. Hughson, L. A. Cuervo, A. E. Patla, D. A. Winter, H. C. Xing, B. H. Dietrich, and G. D. Swanson 1620

Intracranial self-stimulation motivates weight-lifting exercise in rats
R. P. Garner, L. Terracio, T. K. Borg, and J. Buggy 1627

ABSTRACTS FROM CURRENT LITERATURE 1632

ANNOUNCEMENTS 1653

No. 5. NOVEMBER 1991

BRIEF REVIEW

The dystrophic hamster: an animal model of alveolar hypoventilation
E. H. Schlenker and J. A. Burbach 1655

Influence of ventrolateral surface of medulla on tracheal gland secretion
M. A. Haxhiu, E. van Lunteren, and N. S. Cherniack 1663

Reflex responses of laryngeal and pharyngeal submucosal glands in dogs
M. A. Haxhiu, N. S. Cherniack, and K. P. Strohl 1669

Organ blood flow in Fischer-344 rats bearing MCA-induced sarcoma
P. A. M. Van Leeuwen, J. R. Bading, N. A. Vydelingum, R. N. Younes, P. De Rooij, and M. F. Brennan 1674

Alveolar and lung liquid clearance in the absence of pulmonary blood flow in sheep
C. Jayr and M. A. Matthay 1679

Determinants of bronchoalveolar lavage cellularity in idiopathic pulmonary fibrosis
D. A. Schwartz, R. A. Helmers, C. S. Dayton, R. K. Merchant, and G. W. Hunninghake 1688

Effect of estradiol on tissue glycogen metabolism and lipid availability in exercised male rats
Z. V. Kendrick and G. S. Ellis 1694

Muscle ^{31}P-NMR in humans: estimate of bias and qualitative assessment of ATPase activity
T. Binzoni and P. Cerretelli 1700

Perfusate cytochrome *c* reduction in isolated rabbit lungs
R. D. Bongard, D. L. Roerig, M. R. Johnston, and C. A. Dawson 1705

Distensibility of small arteries of the dog lung
A. Al-Tinawi, J. A. Madden, C. A. Dawson, J. H. Linehan, D. R. Harder, and D. A. Rickaby 1714

Inhomogeneous response of expiratory muscle activity to cold block of the ventral medullary surface
T. Chonan, S. Okabe, W. Hida, T. Izumiyama, Y. Kikuchi, and T. Takishima 1723

Role of thromboxane A_2 in airway microvascular leakage induced by inhaled platelet-activating factor
K. Tokuyama, J. O. Lötvall, A. Morikawa, P. J. Barnes, and K. F. Chung 1729

Sweat lactate in exercising children and adolescents of varying physical maturity
B. Falk, O. Bar-Or, J. D. MacDougall, L. McGillis, R. Calvert, and F. Meyer 1735

Aldosterone and prolactin response to exercise in the heat in circumpubertal boys
B. Falk, O. Bar-Or, and J. D. MacDougall 1741

Influences of gender and sex hormones on hypoxic ventilatory response in cats
K. Tatsumi, B. Hannhart, C. K. Pickett, J. V. Weil, and L. G. Moore 1746

Erythrocyte insufflation-induced protection against oxygen toxicity: role of cytokines
M.-F. Tsan, D. Lawrence, and J. E. White 1751

Mechanism of vasoconstriction in the rat's tail when warmed locally
S. Sakurada, O. Shido, and T. Nagasaka 1758

Exercise training depletes sarcoplasmic reticulum calcium in coronary smooth muscle
L. Stehno-Bittel, M. H. Laughlin, and M. Sturek 1764

Occlusion pressure response to inspiratory flow-resistive loading in anesthetized swine
B. S. Segal, J. G. Inman, and I. R. Moss 1774

Effect of aminophylline on transpulmonary passage of venous air emboli in pigs
A. Vik, B. M. Jenssen, and A. O. Brubakk 1780

Decrease in functional residual capacity during inspiratory loading and the sensation of dyspnea
Y. Kikuchi, W. Hida, T. Chonan, C. Shindoh, H. Sasaki, and T. Takish. 1787

Role of vagal afferents in the control of abdominal expiratory muscle activity in the dog
S. B. Hollstien, M. L. Carl, E. S. Schelegle, and J. F. Green 1795

High rates of exogenous carbohydrate oxidation from starch ingested during prolonged exercise
J. A. Hawley, S. C. Dennis, B. J. Laidler, A. N. Bosch, T. D. Noakes, and F. Brouns 1801

Effect of low blood glucose on plasma CRF, ACTH, and cortisol during prolonged physical exercise
I. Tabata, F. Ogita, M. Miyachi, and H. Shibayama 1807

Airways impedance during single breaths of foreign gases
E. Oostveen, R. Peslin, C. Duvivier, M. Rotger, and J. Mead 1813

Low-intensity training produces muscle adaptations in rats with femoral artery stenosis
H. T. Yang, R. W. Ogilvie, and R. L. Terjung 1822

Fructose 1,6-diphosphate augments paraquat injury in isolated dog lungs
T. Shibamoto and J. C. Parker 1830

Intramuscular accumulation of prostaglandins during static contraction of the cat triceps surae
J. D. Symons, S. J. Theodossy, J. C. Longhurst, and C. L. Stebbins 1837

Effects of environmental temperature on the venodilatory response to nitroglycerin
J. A. Gascho, D. Gehman, and R. Brandt 1843

Functional antagonism of airway constriction in the canine lung periphery
K. S. Lindeman, C. A. Hirshman, and A. N. Freed 1848

Fetal swallowing: response to graded maternal hypoxemia
D. J. Sherman, M. G. Ross, L. Day, J. Humme, and M. G. Ervin 1856

Hypovolemic shock promotes neutrophil sequestration in lungs by a xanthine oxidase-related mechanism
B. O. Anderson, E. E. Moore, F. A. Moore, J. A. Leff, L. S. Terada, A. H. Harken, and J. E. Repine 1862

Accuracy of respiratory inductive plethysmograph in measuring tidal volume during sleep
K. F. Whyte, M. Gugger, G. A. Gould, J. Molloy, P. K. Wraith, and N. J. Douglas 1866

Physiological effects of hydrogen sulfide inhalation during exercise in healthy men
Y. Bhambhani and M. Singh 1872

pH-induced effects on median frequency and conduction velocity of the myoelectric signal
L. R. Brody, M. T. Pollock, S. H. Roy, C. J. De Luca, and B. Celli 1878

Hypoxic remodeling of the rat pulmonary arterial microcirculation assessed by microdissection
P. Davies and L. Reid 1886

Neural control of the forearm cutaneous vasoconstrictor response to dynamic exercise
D. B. Friedman, J. M. Johnson, J. H. Mitchell, and N. H. Secher 1892

Relationship between inspiratory effort and breathlessness in pregnancy
S. K. Field, S. G. Bell, D. F. Cenaiko, and W. A. Whitelaw 1897

Human serum catalase decreases endothelial cell injury from hydrogen peroxide
J. A. Leff, M. A. Oppegard, L. S. Terada, E. C. McCarty, and J. E. Repine 1903

Quantification of concentration changes in neonatal human cerebral oxidized cytochrome oxidase
A. D. Edwards, G. C. Brown, M. Cope, J. S. Wyatt, D. C. McCormick, S. C. Roth, D. T. Delpy, and E. O. R. Reynolds 1907

Plasma volume expansion in humans after a single intense exercise protocol
C. M. Gillen, R. Lee, G. W. Mack, C. M. Tomaselli, T. Nishiyasu, and E. R. Nadel 1914

Influence of electrical stimulation on a fast-twitch muscle in aging rats
T. J. Walters, H. L. Sweeney, and R. P. Farrar 1921

Shivering and pathological and physiological clonic oscillations of the human ankle
R. S. Pozos and P. A. Iaizzo 1929

Estimation of regional cutaneous cold sensitivity by analysis of the gasping response
W. E. A. Burke and I. B. Mekjavić 1933

Effect of resistive loads on pattern of respiratory muscle recruitment during exercise
M. Ramonatxo, J. Mercier, R. Cohendy, and C. Préfaut 1941

Adenosine prevents phorbol ester injury in rabbit lungs: role of leukotrienes and TNF
J. D. Bradley, P. B. Zanaboni, R. O. Webster, L. J. Baudendistel, and T. E. Dahms 1949

Lung and chest wall mechanics in microgravity
J. Edyvean, M. Estenne, M. Paiva, and L. A. Engel 1956

Parenchymal stress affects interstitial and pleural pressures in in situ lung
G. Miserocchi, D. Negrini, and C. Gonano 1967

Tissue temperature profile in the human forearm during thermal stress at thermal stability
M. B. Ducharme, W. P. VanHelder, and M. W. Radomski 1973

TNF but not IL-1 in dogs causes lethal lung injury and multiple organ dysfunction similar to human sepsis
P. Q. Eichacker, W. D. Hoffman, A. Farese, S. M. Banks, G. C. Kuo, T. J. MacVittie, and C. Natanson 1979

Pulmonary hypertension after postlavage lung injury in rabbits: possible role of polymorphonuclear leukocytes
R. Burger and A. C. Bryan 1990

In vivo neutrophil sequestration within lungs of humans is determined by in vitro "filterability"
C. Selby, E. Drost, P. K. Wraith, and W. MacNee 1996

Effects of gender, age, and fitness level on response of $\dot{V}O_{2\,max}$ to training in 60–71 yr olds
W. M. Kohrt, M. T. Malley, A. R. Coggan, R. J. Spina, T. Ogawa, A. A. Ehsani, R. E. Bourey, W. H. Martin III, and J. O. Holloszy 2004

Influence of SQ 30741 on thromboxane receptor-mediated responses in the feline pulmonary vascular bed
T. J. McMahon, J. S. Hood, B. D. Nossaman, I. N. Ibrahim, C.-J. Feng, and P. J. Kadowitz 2012

Analysis of responses to sarafotoxin 6a and sarafotoxin 6c in the pulmonary vascular bed of the cat
T. J. McMahon, J. S. Hood, and P. J. Kadowitz 2019

N^{ω}-nitro-L-arginine methyl ester selectively inhibits pulmonary vasodilator responses to acetylcholine and bradykinin
T. J. McMahon, J. S. Hood, J. A. Bellan, and P. J. Kadowitz 2026

Multiple muscarinic receptor subtypes in the canine pulmonary circulation
H. A. El-Kashef, W. F. Hofman, I. C. Ehrhart, and J. D. Catravas 2032

MODELING IN PHYSIOLOGY

Adequacy of a systems structure in the modeling of training effects on performance
T. Busso, C. Carasso, and J.-R. Lacour 2044

SPECIAL COMMUNICATIONS

An algorithm for angiographic estimation of blood vessel diameter
A. V. Clough, G. S. Krenz, M. Owens, A. Al-Tinawi, C. A. Dawson, and J. H. Linehan 2050

LETTERS TO THE EDITOR

Use of ^{13}C substrates for metabolic studies in exercise: methodological considerations
